

Empathy, Creativity, Excellence: My Approach to UX

PROFESSIONAL EXPERIENCE

*Junior Ux Designer*

 No-Country

 Mar. 2023 – Feb. 2024

- Developed user-friendly and visually pleasing interfaces, significantly improving user engagement and satisfaction.
- Fostered a collaborative design process with cross-functional teams, ensuring cohesive integration of UX principles across all stages of front-end and back-end development.
- Pioneered design strategies that preemptively resolved usability issues, positively impacting product quality and user experience.

Impact:  
Catalyzed user engagement and satisfaction, enhancing digital product quality through effective team collaboration.

*Junior Web Designer and Ux Designer*

 Pandora Sistemas

 Aug. 2021 – Aug. 2022

- Spearheaded UX layout design using Figma, meticulously aligning with client specifications.
- Engineered Angular wireframes to optimize API data utilization, and tailored mockups with Bootstrap and Material UI to elevate user interface design.
- Translated user feedback and business objectives into actionable development strategies, ensuring alignment with user needs.

Impact:  
Revolutionized UX design processes, streamlining API integration and refining interface aesthetics to align development with core user and business objectives.

*Web Designer and Frontend Development*

 No-Country

 Jan. 2022 – Jun. 2022

- Collaborated on the development of a user-engaging chat application.
- Conducted iterative design reviews, integrating stakeholder feedback to polish application interfaces.
- Authored a comprehensive style guide, unifying design and branding elements across the application.
- Tasked with the creation of UX/UI layouts that enhanced user.

Impact:  
Contributed to the development of a user-centric chat application, recognized for rapid and efficient project completion.
